Response from the texas agent:

'Rome, Texas is a small unincorporated community located in Fannin County. It was established in the mid-19th century and was named after the city of Rome in Italy. The community was originally settled by pioneers and farmers looking to establish a new life in Texas. Over the years, Rome has remained a small rural community with a focus on agriculture. While it may not have the historical significance of its namesake in Italy, Rome, Texas holds its own place in the history of the Lone Star State as a testament to the perseverance and spirit of its early settlers.'
